When Corey S Nakatani and Vladimir Cerin team up - the return on investment has been fantastic. A pony coming back this rapidly after a good contest is a good sign. Dam's turf offspring have given sound profits (16 starts, 19% wins, +99% ROI).

The combination of Dyke Drayden Van and Barry Abrams isn't on track recently. Sprinters that come back to the races quickly are generally good plays. Barry Abrams brings him right back - advocate you stick with this racer.

Recently, this jockey has produced above average profits for risk takers (27% wins, +3% ROI) with first time entries. Just not worth betting - conditioner not winning many races lately. This Dam's foals have not produced good board hit percentages in their 1st event.

This filly has not run well under Michael Pender's training (0% wins). Bred to handle the turf- should get better. This jockey/conditioner twosome has a strong ROI together.

Will run better than expected with such a strong power rating - strong long shot play. The combination of Irving Orozco and Mike Harrington isn't on track lately. Back peddled down the homestretch last race out.

Second outing - horse will make headway off of the last one. This runner didn't finish near the front of the field in the last race. Faded in the homestretch last race out - may do more of the same.
